

You may have heard the buzz –a great team of folks from the Endeavour Centre is starting Peterborough's first Tool Library! A tool library is like a traditional lending library, but for tools instead of books. For a low yearly membership fee of \$50, members have access to hundreds of tools. All of the elements in place to make the tool library a reality... almost. The Tool Library has a dedicated coordinating team, a supportive backbone organization, a growing collection of tools, and a space to house the library. The only thing they need now is your support!

You can help out by buying an advance membership during the Peterborough Tool Library Indiegogo campaign. In exchange, you'll receive some exclusive founding member perks! We think the Tool Library is an awesome idea, and we encourage you check out the Indiegogo campaign today! You can find the campaign at this link:
<https://www.indiegogo.com/projects/peterborough-tool-library#/>.

Visit www.ptbotoollibrary.ca for more details about the Peterborough Tool Library.
